

**FACULTY OF
ARCHITECTURE**

FACULTY OF ARCHITECTURE

Art and Architecture play an important role in the development of culture and civilization of a nation. The Faculty of Architecture, Naresuan University has engaged in nurturing quality architects and designers since our founding days. All programs offered in our Faculty are directed toward sustainability and sustainable development. The Faculty strives to succeed in marrying practicality and theory through research and creative works. Our graduates are known to be creative, competent, and well sought after.

Master of Architecture programs are interdisciplinary research-based to be completed within two years. Research topics are geared towards the environment, architecture, and sustainability. All Master of Architecture programs are available to both Thai and international students with a bachelor's degree or equivalent in architecture or other related fields. These are supervised in either Thai or English.
