

SCHOOL OF LOGISTICS AND SUPPLY CHAIN

SCHOOL OF LOGISTICS AND SUPPLY CHAIN

The School of Logistics and Supply Chain (SLSC), Naresuan University, is the first of its kind offered in a public university. It was established for multi-disciplinary education, research, and public consulting services in the area of logistics and supply chain. It is intended to produce leading academics and professionals in order to support sustainable research and development.

The logistics and supply chain program attracts business professionals from across ASEAN to benefit from its unique combination of master's level coursework, professional development, and industrial interactions. It is designed to equip students to meet current and future needs in the supply chain management profession by creating and sustaining competitiveness in the supply chain through cost, quality, and efficiency. This program provides its graduates with proficiency in both problem solving and change leadership. Students gain first hand experiences through practicing skills in a wide variety of industries, including consulting, manufacturing, retailing, logistics, distribution, and software.

Our aim is to produce expert logistics and supply chain professionals capable of applying skills developed here at Naresuan University and making a significant difference in the indispensable operations of logistics and supply chain.
