

DOCTOR OF PHILOSOPHY PROGRAM IN NATURAL RESOURCES AND ENVIRONMENT

■ FACULTY OF AGRICULTURE, NATURAL RESOURCES AND ENVIRONMENT

DOCTOR OF PHILOSOPHY PROGRAM IN NATURAL RESOURCES AND ENVIRONMENT

The hallmark of this program is its multidisciplinary focus. The program is dedicated to preparing the researchers trained in research methodology to lay a good and accurate research foundation so that they may meet the full range of natural resources and environment concerns on a sustainable basis, both nationally and regionally, especially for our homogeneous neighboring countries.

Our program has the objective to provide high quality teaching and research supervision by our faculty teams with expertise in diverse but related fields, such as Science and Technology, Geography, Geology, Ecology, and Environmental Health Science. Our aim is that the graduates should be expertly equipped and take their place at the forefront in the natural resources and environment management.

Objectives

The program has identified as desirable for graduates the following attributes:

- In-depth research expertise. Able to create new knowledge in the natural resources and environment.
- Professional knowledge. Use and maintain knowledge in problem analysis leading to solutions in balanced, integrated, and sustainable practices.
- Academic and professional ethics. Strive continually and independently to secure further knowledge and understanding with appropriate ethical standards.

Admission

In accordance with the Graduate School Rules and Regulations. The program committee reserves the rights to require more qualifications as deemed appropriate.

Medium of Instruction

Thai and English

Research Focus

- Forrest Resource Management
- Conservation and Management of Natural Resource Diversities
- Ecology of Water Resources
- Environmental Impact Analysis
- GIS in Natural Resources and Environment

Requirement for Graduation

In accordance with the Graduate School Rules and Regulations with the following additional requirements.

- Organize, participate, and present a paper at least once a semester, every semester for at least three semesters while studying in the program.
- Participate in an international conference at least once.
